EXAM INSTRUCTIONS

IT IS IMPORTANT THAT YOU READ THESE INSTRUCTIONS CAREFULLY BEFORE YOU START YOUR EXAM.

- Use the exam papers carefully. Only one exam paper will be provided.
- This test is divided into three independent sections:
 - Section I: Reading comprehension
 - Section II: Language
 - Section III: Writing
- Before looking at the actual questions, read carefully the rubrics or instructions.
- You must write your answer in the space provided for each question.
- For multiple-choice questions, you must select the correct answer from the choices given and write the corresponding capital letter (A, B, C or D) in the space provided for each question. Don't write the whole answer.
- For true or false questions, write either T or F in the provided space. No justification is required.
- If you decide to change an answer, completely erase your old answer and then write the new one.
- Enough space is provided for the answers to wh-questions. Do not exceed that space. Your answers must be based on the text.
- Enough space is also provided for the writing tasks; do not exceed it. Make sure your handwriting is clear.
- You are not allowed to use electronic devices or documents during the exam session, nor communicate with anyone other than board personnel.

SECTION 1 : READING COMPREHENSION

PASSAGE A

Reader's Digest Editor-in-Chief Liz Vaccariello recounts an inspiring summer night.

For as much as I love nature, it's remarkable that I grew up in a family that didn't spend a lot of time there. The Ludlows weren't campers, hikers, or beachgoers. That's not to say we didn't go outdoors. We just didn't stay there long. My dad's favorite way to relax was to sit on the patio with a glass of iced tea. He'd preside over his freshly mowed lawn, enjoy the birds, and watch the sunset. But when the sun went down, he went inside.

Lots of kids grow up gazing at the stars and constellations. Me? I never noticed the stars. In my early childhood, the darkening shadow of evening was a sign that it was time to hightail it home from the park on my bike. If I had to turn on my handlebars, I'd mount the sky. I saw it the summer before seventh grade when we went on a family trip to Wyoming. In my mental photo album, I feel the mist of Old Faithful, I smell the store where I bought a cowboy hat, and I shiver in my sleeping bag on the overnight rafting trip down the Snake River.

One night, Dad had arranged for us to sleep in a tepee. When the flames died down after our authentic campfire dinner, he kept my little sister, Sara, Mom, and me outside, wrapped us in blankets, and told us to look up, wait, and watch. *Plink, plink, plink.* As my eyes adjusted, the stars appeared. *Plunk, plunk, plunk.* The black filled with white. *Plink, plink, plink, plink, plink.* Dad revealed the universe. That Wyoming sky imprinted itself on me.

Decades later, I crave walks in the woods. I love to sit by a lake for hours, a sunset mesmerizes me. And everywhere I go, I look up and search for the heaven I saw that night. I have yet to see that sky again, so utterly aglow. I don't know if that's because my kid memory blew it out of proportion or because our lit-up world makes seeing the true sky all but impossible. I just know I haven't stopped looking.

PASSAGE B

Alternative medicine is, by definition, an alternative to anything else – modern, western medicine. But the term 'alternative' can be misleading, even off-putting, to some people. Few practitioners of homeopathy, acupuncture, herbalism and the like regard their therapies as complete substitutes for modern medicine. Rather, they consider their disciplines as supplementary to orthodox medicine. The problem is that many doctors refuse even to recognize 'natural' or alternative medicine, so they call for a radically different view of health, illness and cure. But whatever doctors may think, the demand for alternative forms of medical therapy is stronger than ever before, as the limitations of modern medical science become more widely understood.

Alternative therapies are often dismissed by orthodox medicine because they are sometimes administered by people with no formal medical training. But, in comparison with many traditional therapies, western medicine as we know it today is a very recent phenomenon. Until only 150 years ago, herbal medicine and simple inorganic compounds were the most effective treatments available. Despite the medical establishment's intolerant attitude, alternative therapies are being accepted by more and more doctors, and the World Health Organization has agreed to promote the integration of proven, valuable, 'alternative' knowledge and skills in western medicine.

A. Are these sentences true (T) or false (F)?

- The term 'alternative' is entirely appropriate when applied to medicine.
- Nowadays, more and more people are asking for alternative medicine.

9. _____
10. _____

B. Choose the correct answer.

- Few practitioners of alternative medicine

Fainting is often portrayed in cinema and TV as being a comical event - where the individual will suddenly (18) in a flamboyant fashion as a result of shock, fear or surprise only for the audience to laugh. However in reality it can be a very scary thing, and even dangerous under the wrong circumstances. It can also be something of a puzzling experience if you don't (19) precisely what it is that has caused you to faint. Some people faint in crowds. Others faint if they are in a room that is hot and stuffy. If a person faints while standing, (20) him down. If his face is pale, (21) his feet. If he is sitting down when he faints, (22) his head between his knees. Loosen any tight clothing that might (23) him from breathing easily. If possible, place a cold, wet cloth on his forehead.
